

Breast Cancer Awareness (Triple Touch II) Education Sessions

As part of our 2008/2009 Employee Wellness Campaign, the Risk Management & Employee Benefits Department is offering this education session to Martin County School District Employees & Retirees.

This presentation is designed to raise awareness and help women understand the importance of a good breast health plan.

With instructors trained by the American Cancer Society, the session will cover the breast cancer screening guidelines, risk factors, signs and symptoms, and recommendations to lower the risks of developing breast cancer.

This training emphasizes the importance of regular mammograms for women age 40 and older as well as other screening recommendations.
