The Life Safety Code Handbook from the N.F.P.A. states that there shall be two (2) emergency evacuation drills within the first 30 days of operation and that there be one drill for every month the school is in session. This means that each school shall have at least eleven (11) emergency fire drills per year and schools that have summer school will have twelve (12) emergency fire drills per year. It also requires that all occupants shall participate in the drill.
